

CASE STUDY

OBJECTIVE

veSpace has recently supported bp on a number of evening activities as part of their events.

The first was a Cocktail Masterclass where guests would be invited to partake between dinner courses. Working with GOTO Events, we created an itinerary that allowed time for each course and the masterclass.

- 7.45pm - Introduction and briefing on the night ahead
- 8.00pm - Starters Served
- 8.20pm - Cocktail Masterclass - Round 1
- 8.40pm - Mains Served
- 9.10pm - Cocktail Masterclass - Round 2
- 9.30pm - Desserts Served
- 9.50pm - Final Cocktails and presentation of winners

The entire event was delivered by a professional mixologist and creates an amazing backdrop for a fun experience that makes people feel fully immersed in an upbeat lively team experience.

Everyone had the opportunity to create 3 cocktails, including the team showstopper! Alcohol-free options were available, and simply replaced the spirit element with a non-alcoholic alternative. All other elements are the same, so everyone felt included.

The second event was a Casino night working with Off Limits who were magnificent and responsive from the outset. Casino evenings have universal appeal. They're great for breaking the ice and will get all guests participating in the fun. Guests can get acquainted over a friendly game of poker.

Off Limits offered different activities to adapt to client requests including Roulette, Blackjack, Craps and Poker.

On-site, they were very flexible and adapted to every last-minute change. They were engaging with the delegates and made the activities more enjoyable. They also extended 2 hours extra of the casino when on-site.

“Thanks again for ALL your help! it made my life so much easier having you there.”

Michelle Graham
Communications & Team Assistant Castrol

AT A GLANCE

Cocktail Masterclass

Danesfield House Hotel & Spa

20 delegates

Casino

Pentahotel Reading

70 delegates

“These events are a great way of bringing people together, fun and a great team build but also informative. For the Casino night, we felt there was a lot of value in bringing an event manager on-site to deal with the setup, on-site changes, look after delegates and intermediate between client and venue. We take away all the stress, allowing the client to enjoy the event alongside the other delegates.”
